To Whom It May Concern:

It is my knowledge that Mr. Rolak is to surrender to the West virginia Federal Prison on January 25 th, 2023. I respectfully request Mr. Rolak's report date be extended to a period of 90 day or more for the following reasons:

Domenic Rolak is currently under Orthopedic care for the following conditions:

Low back pain with sciatica, sciatica laterality unspecified, unspecified back pain laterality, M54.40
unspecified chronicity - Primary
Pain in joint involving pelvic region and thigh, unspecified laterality M25.559

It is my medical opinion that Mr. Rolak is currently suffering from a ongoing physical condition involving deterioration of his physical being due to the onset of his back pain issues, which will require continuous medical care involving injection & Physical therapy with possible surgical intervention to lumbar. Due to the aging process of his condition it substationally diminishes the patient/defendant to provide self care with the environment of a correctional facility without conventional treatment.

If you have any questions or concerns, please don't hesitate to call.

Sincerely,

Michael Baghdoian M.D
